

Vaibhav Vyas
Associate Professor
Computer Science Department
Banasthali Vidyapith

I am delighted to provide this recommendation for Surabhi Shreya, a hard-working, diligent, and curious student. Throughout the time I instructed her in the Data Structures and Algorithms course, during her second and third years, she exhibited outstanding problem-solving abilities, as well as exemplary personal and professional conduct.

Surabhi is an exceptional learner who exhibits remarkable qualities in various domains. Her quick learning abilities, proactive nature, and leadership skills are evident in their academic achievements, where she excels in coursework, projects, and examinations.

Not only does she excel individually, but she also extends her expertise to help her peers with their studies, fostering a positive learning environment through collaboration.

One remarkable quality that she possesses is working calmly under pressure. She doesn't panic in difficult situations and tackles everything with calm and poise.

Additionally, Surabhi demonstrates adaptability, and a positive attitude, tackling challenges with enthusiasm. Her active participation in co-curricular activities and her engagement in college-club related activities showcases her well-rounded personality and her dedication to holistic growth.

In summary, Surabhi is an exceptional candidate for the Google Generation Scholarship Program. Her effective communication skills, leadership, problem-solving skills, and resilience in overcoming obstacles make her an ideal candidate for this prestigious scholarship. I wholeheartedly endorse her application and have full confidence in her ability to continue excelling in the field of computer science and making significant contributions therein.

Thank you for considering her application.

Sincerely,

Vaibhav Vyas
